Avoid finding those hidden **underground assets** by accident.

Use the beforeUdig **quick & easy** service.

There is **no excuse**, contact beforeUdig before excavation works.

## What is beforeUdig?

The beforeUdig service enables anyone intending to undertake excavation works to obtain information on the location of underground pipes and cables for any location within New Zealand, simply by making one single enquiry.

## Power, Gas, Water and Telecommunications

All these services are provided via underground pipes and cables which provide a lifeline to both the business and private sector of this country.

Damaging these assets could affect thousands of businesses and inconvenience people across the nation. The cost of damages in repairs, downtime and loss of business could be unimaginable. But it does happen!

That's why using the beforeUdig service before excavation is vital to the well being of the entire community.

## Interactive Desktop and Mobile Website

The beforeUdig interactive website allows you to lodge your enquiries online either on your desktop computer or onsite on your smartphone or mobile device. We use the most up to date Onecall program available which enables you to view the excavation site onscreen.

## Contact Details

P: 0800 248 344

W: [www.beforeudig.co.nz](http://www.beforeudig.co.nz)

E: [contactus@beforeudig.co.nz](mailto:contactus@beforeudig.co.nz)

PO Box 99748 Newmarket  
Auckland, New Zealand

## How Does beforeUdig Work?

### Step 1

At least 2 working days before commencing your excavations, lodge a beforeUdig enquiry providing us with information about the worksite.

Web: [www.beforeudig.co.nz](http://www.beforeudig.co.nz)

### Step 2

Our state of the art system will immediately search its database to notify known asset owners who are members of the beforeUdig service and could be affected by the intended excavation works. Simultaneously, we will send you contact details of these asset owners via a "Confirmation sheet"

### Step 3

Participating asset owners will provide you with asset information relating to the worksite, usually within 2 working days of lodging your enquiry (allow 5 working days for response by post).

Whilst the most common response method is by providing you with a map of the site showing the asset locations, asset owners may choose to contact you directly to discuss the intended works or provide you with an onsite service to ensure the assets are protected.

Whilst it is free to use the beforeUdig service to gather information on the possible presence of underground assets in and around your proposed excavation site, to request plans and locate services, some Utilities and Local Government Organisations may charge to supply these services. Please check with the relevant asset owners listed on your confirmation sheet if you require more information on these possible charges.

The information supplied by beforeUdig of Asset Owners who may have underground assets in or around your proposed excavation site may not represent all Asset Owners affected. It is your sole responsibility to ascertain any other Asset Owners in or around your proposed excavation site. The information supplied by beforeUdig is solely to assist you in this process.
